

As part of Hampshire County Council's annual Planned Maintenance programme, this email is to inform you that we will be undertaking Finamac HT works along A27 Botley Road, North Baddesley from Chilworth Golf Entrance to North Baddesley Infants School.

The purpose of the treatment is to return a surface texture to the carriageway, that in a recent condition survey was highlighted as being poor. The treatment is also designed to regulate the shape of the road and seal the road structure from water ingress, which will help prevent potholes from forming.

These works are currently programmed to start on 12th July 2026 and are expected to take up to 1 day to complete. During this time the road will be closed from 07:00 hours on the 12th July 2026 through to 00:00 hours on the 12th July 2026. Vehicular access for residents and businesses will be maintained when possible and safe to do so, and small amounts of traffic in the early life of the treatment will not be detrimental. Pedestrian access to properties will not be affected, and emergency vehicles will have access at all times.

Whilst there is an allowance within the time periods shown above for delays, there may be times when we have to postpone works at very short notice; based on the latest weather forecasts, this can occur just prior to works commencing. We will always look to provide up to date information wherever we can, but sometimes these last-minute decisions can be difficult to relay to the travelling public in a timely manner. **When we can, any significant changes to the scheduled dates will be made clear on the yellow sign boards located at the works limits.**

Information signs advising road users will be erected before the start of works and Test Valley Borough Council have been copied into this email to advise them accordingly.

Kind regards,

Richard Peach
